(The Hui) is a growing network of fishpond practitioners and organizations from across ka paeʻāina o Hawaiʻi (the Hawaiian archipelago). The Hui was formed as an opportunity for practitioners to empower each other and leverage their skills, knowledge and resources related to restoration and management of loko iʻa (traditional Hawaiian fishponds).

The Hui has met opportunistically since 2004. In 2013, KUA received a grant from the Office of Hawaiian Affairs and Conservation International’s Hawaiʻi Fish Trust to support the Hui in building its operational structure and overall capacity. In May 2014, KUA facilitated the largest-ever gathering in Hāna on the island of Maui, a place where fishponds and other significant fishing practices originated.

Four hundred eighty-eight fishpond sites were identified in the last statewide survey (DHM 1990). Among these 488 loko iʻa sites, many are in degraded conditions, sometimes completely beyond repair or unrecognizable as fishponds. However, for the sites that are partially intact, there are communities and stewardship groups who actively restore or have expressed interest in reviving the integrity and productivity of these places.

**Loko iʻa, or Hawaiian fishponds, are unique aquaculture systems that exist throughout Hawaiʻi, and continue to feed and connect communities around the islands.**

Today, Hawai‘i’s communities are coming together. They are working to reclaim their role as stewards of their places, advancing just solutions to Hawai‘i’s most difficult environmental and social problems.

They are joined in this work by others who are researchers, teachers, businesses, artists, resource managers, decision-makers and individuals in Hawai‘i and around the world.

KUA exists to serve this movement.

2014 Supporting ‘Ohana
Mahalo nui loa to The Harold K.L. Castle Foundation, Office of Hawaiian Affairs, Wallace Alexander Gerbode Foundation, Hawai‘i Community Foundation FLEXgrants & Omidyar ‘Ohana Fund, Keith & Judy Swwayne Family Foundation, Sidney E. Frank Foundation, Toyota TogetherGreen by Audubon, Hawai‘i People’s Fund, Conservation International Hawai‘i Fish Trust, the Pacific Aquaculture & Coastal Resources Center, and individuals around Hawai‘i and the world who help make this work possible.

OVER THE YEARS, the number of participants and fishponds represented in the Hui has increased. The network currently includes over 38 fishponds and complexes, with over 100 fishpond owners, workers, supporters, and stakeholders.

The Hui is driven by loko i‘a practitioners and over the next year, KUA will continue to facilitate their collective discussions and work.
